Art Unit: 2876

1. The lengthy specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.
2. Claims 1-14,16-39,41-63 are allowable over the prior art of record
3. The following is a statement of reasons for the indication of allowable subject matter: the prior art of record fails to teach or fairly suggest to one of ordinary skill in the art at the time of the invention, in conjunction with ALL the other limitations of the independent claims, the 2-dimensional printing, data conversion, hologram or holographic stereogram producing and certification medium manufacturing means and their specific details as currently combined.
4. Claims 15 and 40 are objected to because of the following informalities: Both of these claims recite "foreground and/or background". In the context of the claims, the examiner believes that this should be - - foreground or background - - . If applicant disagrees, the examiner suggests that the claim would be indefinite as it is not understood, within the context of the current claims, how the image can be both the foreground and the background. Appropriate correction is required.
5. This application is in condition for allowance except for the above listed formal matters.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
